

INDUSTRIES

Physicians & Allied Health Professionals

Our expert attorneys represent physicians and other health care professionals in all phases of their practice, including the defense of physicians, nurses, chiropractors, dentists, physical therapists and other allied health professionals who have been sued for malpractice, as well as before administrative and regulatory bodies.

We routinely serve as outside general counsel advising clients in complex regulatory and risk management issues to assist in reducing the risk of lawsuits and to ensure compliance with state and federal laws. We service our clients' corporate and regulatory needs, providing full-service representation.

In addition to legal expertise, many of our attorneys are also trained nurses, midwives and lawyers that hold a Master's degree in Health Care Management.
