Sandberg Phoenix Overland Park Moves to New Larger Space

NEWS & EVENTS: FIRM NEWS

RELATED ATTORNEYS: MEGHAN LEWIS

Less than one year after opening their first office in the Kansas City metropolitan area, Sandberg Phoenix has expanded its Overland Park, Kansas office to accommodate additional attorneys and more client meeting spaces.

The new, larger office features additional offices for new attorneys, paralegals and support staff, larger conference rooms and advanced connectivity technology. The expansion was needed to accommodate the office, which more than tripled in personnel since its foundation in April 2013.

Working from the Overland Park office are Shareholders Ron Marney and Phil Dupont and Associate Meghan Lewis. The additional office space will allow attorneys from other Sandberg Phoenix offices to visit and meet with clients, extending the firm's deep bench of expertise and knowledge to clients in Western Missouri and throughout Kansas.
