

INDUSTRIES

Entrepreneurs, Closely Held & Family

Owned Business

Our team is tailored to meet the needs of closely held and family owned businesses, entrepreneurial enterprises and the entrepreneurs that manage these enterprises.

Our attorneys assist small businesses and startups from daily operational needs to long-term strategic goals. We adapt to our clients' needs as their business grows.

Businesses at any phase and entrepreneurs face strategic challenges in moving towards their goals. That's why many business owners and entrepreneurs find themselves overwhelmed by a lack of understanding of common legal and corporate structure/governance issues despite having an in-depth understanding of their own particular industry.
